GENERAL

Clarifications:

- Question:** Do you have any information on an average tonnage weight for the 30 yard roll off containers? Is there a weight limit in place currently? For example, with a flat fee rate with the current contract, is the tonnage capped at a pre-determined limit and charges for tonnage over the cap? Example, would be any tonnage over 5 tons would incur a charge per ton over that limit. **Answer:** I have reviewed the current contract and the only thing in it about 30 yard roll off containers is as follows:
All 30 yard dumpsters will be picked up on request or place weekly schedule by the site Maintenance Supervisors or Foreman.
- Question:** In the bid packet, the Exhibit 2, Bid Bond Form, is marked N/A. Is a bid bond required for the submission of bid? **Answer:** Per DMHA Procurement policy non-construction contracts should generally not require bid bonds.
